Introduction

Braja region has been the cradle of religious, theological and cultural opulence because this area has, eventually, been the field of outstanding academic endeavour by so many scholarly saints from allround India, particularly during post medieval period. Undoubtedly the cause of cause was that this place was the platfrom of delicate, divine dalliance of deity of love ie. Lord Kṛṣṇa; the creator, protector and propagator of Braja Culture or Indian Culture on the whole. We owe a great deal to these scholars, saints, who conveyed the cultural heritage to the society in the form of literature and art.

The Vrindaban Research Institute, since its very inception in 1968 has been the medium of protection and propagation of Braja Culture. It has acquired about 30000+Manuscripts of Sanskrit, Hindi, Bangali, Punjabi, Gujrati, Orea and Persian scripts; and is a host of archival material and important historical documents. Experiencing the need of preservation and protection of cultural material of Braja, the institute has already had an accessory building erected very recently, still to be finished and furnished by the financial aid of Ministry of Culture, Government of India.

The Institute has already published five parts of the Catalogue of Sanskrit Manuscripts, in the year 1976, 1978, 1981, 1985 and 1991 respectively; within this period two Catalogues of Hindi Manuscripts one of Bengali manuscripts and one of Punjabi Mss. and one Catalogue of Manuscripts microfilmed in V.R.I. have already been published. The Manuscript of the next Catalogue of Mss microfilmed is ready for press.

It bestows upon us a fair solace to present the VI part of A Catalogue of Sanskrit Manuscripts in V.R.I. before the scholars after a fair long gap due to different fair causes; the main has been the unavailability of a chief Cataloguer. It is an art of expressing substantially maximum in minimum words. The VI part of Catalogue of Sanskrit Manuscripts conforms to the statutory layout adopted in the V part. To the 16830 entries of the manuscripts listed in parts I-V, 3008 more entries have been added. And thus the serial no. has come upto 19838.

The informative data is tabulated in eleven columns. Please open the tables (Page 1-489). The table begins from verso side of page one and data runs directly to recto side of page two; likewise upto 489. 1rst column gives subject and S. no. It indicates that before the start of Cat. VI 16830 Mss have been Catalogued from I-V Catalogue. Column 2nd gives accession no. at which the concerning Ms for study can be had through the book lifter. Column 3rd holds Title of the work; 4th holds Name of Author; 5th Name of Commentator (if any); 6th gives material (paper etc.); 7th gives script. The proportion of Bengali script is badly diminished here and total no. of such is only 275. All the rest are of Devanāgari script. The 8th column is divided into 4 subcolumns; first broader one gives size in cms; second no of folios, 3rd lines per page and 4th letters per line; 9th column gives extent; wheather complete of incomplete; 10th column tells us the condition and age of the Ms; but that date is only date of scribing not ot composition which is mentioned in the 11th column; (if traced in the Ms.) This column of additional particulars is most important that represents substantial gist of the Mss in minimum words.

As in the previous Catalogues the Bhakti Material predominates here once more; which conspicuously indicates that this region has been a place of spiritual endeavour and devotional practice by sages and personages particularly following various Vaiṣṇava cults. The list of subject headings gives a Catagorisation of the manuscripts according to their subject. There are a few Manuscripts that come under two headings due to their ambiguity. Bhaktirasāmṛtasindhu, for example, has ever been a point of controvercy, so at present the same Ms. is catagorised under two haads; Bhakti Treatise and Alaṁkāra (S.No. 17891-17893, 19555, 19556)

For the first time in this Catalogue the S.No. is given instead of page no. in order to facilitate the scholars to be faster in tracing the matter in the list of subject headings.

Here are some Mss of particular interest for the scholars that are presented in sequence of subject heading. Serial No. in bracket is given for reference.

VEDIC LITERATURE

The representation of Vedic Literature is eventually very ordinary; but Manuscript as beneath attracts the attention of the students to study the diversion of track of the subject.

Draviḍavedapramāṇasaṁgraha (16874)

UPANIṢAD

Following are two commentaries on Gopālatāpanī Upaniṣad by two Acāryas of two different sects, that put forth a comparative study of philosophical dimention of the two Vaiṣṇava sects. ie-

Gopālatāpanī Upaniṣad with commt. (16903) Jīva Gosvāmī

Gopālatāpanī Upaniṣad with commt. (16905) Raṇachoḍadāsa

VAIṢṆAVA SMṚTI

Gopīpremāmṛta (17558) A lesser tract from above purāṇa.

DARŚANA

This heading is rich with Nyāya works (S.No. 17629-17693).

(D) Govindabhāṣya (Brahmasūtra) (17808); A commt. with Acintyabhedābheda stand point.

Above four commentaries on Brahmasūtra are an interesting topic of research for scholars. (e.i. A comparative study of these Vaiṣṇava philosophies)

Following are three Manuscripts on the same topic by three different author-saints.

Arthapañcaka (17742-17744)
by Lokācārya (17742)
by Nārāyaṇa Yatīśvara (17743)
by Ṣaṭkopadāsa (17744)

There are two others (author not mentioned) (17740, 17741)

All these five are a good topic for research. It is to be noted that all belong to Rāmānuja cult.

A prose work; Gadyatraya (17747) by Rāmānujācārya depicts that Śrī Rāma or Śrī Raṅga is supreme and is attainable by Bhakti only.

Sārasaṁgraha (17821) by Rūpa Kavirāja. A work of Sahajiyā cult. ie, an interpretation of Gauḍīya approach to Bhakti; hence a subject of speculation. More than one toic for research may be derived from this single work.

MISCELLANEOUS

Golokavarṇaṇa (19799) From Sadāśivasaṁhitā

The specific feature of V.R.I. Catalogue is its sevenfold Appendices. The first Appendix comprises extracts of Beginning, End and Colophon of some select Manuscripts. The percentage of the selection from the whole is roughly 3%. The extracts are suggestive to the scholars as incentive to research. Letter E is attached to

the corresponding S.No. to denote extract. Then begins the sixfold indices. Index A comprises titles; index B includes authors and commentators and thus a crosswise reference number ie. Serial No. helps the scholar to trace his assumption. Index C includes Scribes, who write the Mss manually. Index D contains name of the place where they are scribed.

Index E include the title of the works that are quoted by the author as reference to a cirtain subject. It is mentioned in the 11th column. It is obvious that a thorough survey of these works is not possible at this phase of Cataloguing. But an attempt is made to have a birds eye-view so as to cover roughly 80%. Let us know about the style of expression. We observe that the works like Saṁhitās, Purāṇas and Upaniṣads etc. are so often quoted. Therefore in the case they appear in a good number, we donot put the class repeatedly for example in Sārasaṁgraha (S.No. 17014) purāṇas are quoted as "Padma, Kūrma, Śiva, Bṛhnnāradīya, Skanda, Bhaviṣya, Harivaṁśa, Varāha, Matsya, Bhāgavata purāṇas." We can sea that we do not repeat the class purāna so it might not be cumbersome; likewise saṁhitās, Upaniṣads etc are quoted without repeating subject head.

This sixth part of A Catalogue of Sanskrit Manuscripts is compiled by Shri Vrindaban Behari; research officer of the Institute. He was assisted by Dr. Kamlesha Pareeka Librarian in supplying the physical details of the Manuscripts and academic consultation from time to time particularly after Lale G. C. Ghosha. He was assisted sincerely by supplying Manuscripts in due time by Ram Gopal Sharma the booklifter of the library. He was helped by Ashoka Dīkshit, Pareek in proof reading, while his son Anshuman Sharma (Rāmakatha Pravaktā) Śrīmati Chitra Gosvāmi and Shrimati Mamta Jha did actual manual work on his instruction. Our sincere thanks are also due to Secretory Shrimati Sushila Gupta and also to Late Śrī Rajkumar Gupta for their encouraging suggestions and incentives form time to time.

We are greatful to the Ministry of Culture Government of India for their generous grant in aid towards the preparation and publication of the Catalogue and also for their valuable suggestions. Our heartly gratitude is due to all donors of Manuscripts to our institute so as to help us in saving and propagating Braja culture and Indian culture at large. I would like to quote a name of Śrī Rāmānujacharya great saint scholar of Śrimad Bhāgavata; donor of more than hundred valuable Mss some are mentioned above. Our last but not least obligation is due to Śhri Bhagavat Krishna of Harinam Press and his sincere staff for their anticipatory capacity of job and prompt response and his overall excelence of representation.

Jai Shri Radhe
